Adaptive Reuse in Urban Areas, Nicosia, 5.2022  
Resilience and Future Heritage, Thessaloniki, 11.2022

Exhibition: 7th - 12th June, 2023

" HERSUS proposes enhancing and testing of innovative teaching practices in the field of sustainability of the built heritage. The project strives to enhance the competence and motivation of educators and researchers to include curricula elements that will have tangible results, preparing students and educators to become real actors of the environmental change.

The exhibition shows the activities and results of HERSUS Project, as well as its international presence and media projection. "

# NOTES FROM THE UCY OPEN HOUSE

////////////////////////////////////

The UCY HERSUS OPEN HOUSE activity of the International HERSUS project took place at the Department of Architecture of the University of Cyprus (UCy) on June 7th. The exhibition presented the activities and results of HERSUS Project, including

- Presentation of HERSUS Intellectual Outputs (01: Review of the Best Practices on Educating Sustainability and Heritage, 02: Questionnaire for the State of Art, 03: Statements for Teaching through Design for Sustainability of the Built Environment and Heritage Awareness, 04: HERSUS Sharing Platform) and other activities (timeline of the HERSUS outputs, main achievements etc),
- Results of the three International HERSUS Student Workshops (C2: Student Workshop 1: Sustainable Reconstruction in Urban Areas; C3: Student Workshop 2: Adaptive Reuse; C4: Student Workshop 3: Resilience and Climate Change),
- Awarded projects of the HERSUS Prize on Modern Built Heritage (awarded finalist and shortlisted proposals for each of the four categories – Education Students, Education Instructors, Practice and Research).

The exhibition was held at the Lobby of the UCY Department of Architecture at the same time as the students' final projects exhibition for the academic year 2022-2023. The event was well attended, with participation and interest by students and faculty, as well as representatives from various municipalities, public entities and of course from practice. Moreover, introductory keynotes for the event were delivered by the university's Vice-Rector of Academic Affairs, the Vice-Dean of the School of Engineering, the president of the Cyprus Scientific and Technical Chamber, the president of the Cyprus Architects Association and last but by no means least, the UCY HERSUS coordinator.
