DESIGN CHALLENGES MACRO AND MICRO SCALE

- Challenges in Architecture, Urban Design and Art
- Modeling the Future – modeling of the future architecture and design with implications for environment and society,
- Living architecture

- Urban Design Projects – small scale design thinking and town planning as an inspiration for integrative planning,
- Showcase Presentations – new idea or project realization in Architecture, Urban Design or Art

Bojana Jerković-Babović, Lazar Dimitrijević

DLM INTERIOR - DESIGN AND ADAPTATION OF LIVING SPACE

The spatial concept is based on fresh tones combined with neutral, natural ones to create a pleasant simulation of the natural in an urban environment. The interior design combines the textures of concrete, wood and turquoise marble, where the turquoise tone accentuates and visually opens the surface of the ceiling, wall decor and textiles in space. Circular and semi-circular design motifs are represented in the space, in mirror surfaces, lighting, furniture and decor. The functional organization is based on achieving free circulation. Large mirror surfaces also contribute to greater visual fluidity and a lightness of the entire space.

Location: Dalmatinska street, Belgrade, Serbia
