Under construction
2020 -

METEOR studio was founded in 2016 by Ivana Rakonjac. Architectural practice, based in Belgrade, Serbia, gathers a small team of architects providing solutions to contemporary architectural and urban challenges. Our approach to design varies, ranging from urban design to architecture - buildings of all types, interior, furniture design and lighting design.

METEOR studio is also working on product design for METEOR lux, developing projects in a multi-disciplinary, collaborative design process that involves various technical and creative research. COLLECTION M is a product line for illuminating interior spaces. The collection, based on a modular system, provides flexibility in the final product design. The combination of the available elements /modules/, the variability of the installation types, and the array of finishing possibilities enable numerous different models of luminaries. The unique approach in product design is user participation and custom-made luminaries. The flexibility in alternations, combining diverse elements / shape, size, and color /, results in the inimitable lamps following the client's affinity.

Bulevar despota Stefana 43,
Beograd, Srbija

Poštovana Ivana Rakonjac,

Balkanski Arhitektonski Bijenale (BAB) ove godine navršava 10 godina svog postojanja. Povodom jubileja, biće održana izložba koja je simbolično nazvana "50 do 50" u okviru koje će biti predstavljena domaća arhitektonska i dizajnerska scena.

Cilj izložbe je afirmacija, prezentacija i promocija 50 domaćih autora koji pripadaju novom talasu stvaralaštva, odnosno imaju do 50 godina. Na izložbi će svoje referentne radove predstaviti 40 arhitektonskih biroa i 10 dizajnera iz Srbije koji su svojim autorskim pristupom značajno uticali na razvoj lokalne kreativne scene.

Pozivamo METEOR studio da predstavite svoje radove u oblasti arhitekture i urbanizma, kao i oblasti dizajna na izložbi "50 do 50", koja će biti održana u izložbenoj galeriji „LAG“ u Beogradu, od 11. oktobra do 5. novembra 2021. godine u organizaciji Balkanskog arhitektonskog bijenala – BAB.

Marko Stojanović, dipl.ist.um.
